

EZ-EFI™ Self Tuning Fuel Injection System

Fear not fuel injection fans. FAST™ has just made it easier than ever to convert your engine from carburetion to fuel injection with the new FAST™ EZ-EFI™ Self Tuning Fuel Injection System. The most important feature of this amazingly efficient system is the self-tuning operation that does not require chasing components, expert tuning experience or a laptop computer to tune. Simply hook it up, answer the basic setup Wizard questions on the included hand-held display and the system truly tunes itself.

The FAST™ EZ-EFI™ Self Tuning Fuel Injection System is a totally complete system including the ECU, wide-band oxygen sensor, wiring harness, fuel injectors, fuel pump kit and other assorted components, including the innovative new 4150 Throttle Body from FAST™.

The FAST™ 4150 Throttle Body delivers the total package approach for anyone with an existing 4150-type intake manifold. Everything comes with the kit, including appropriate fuel injectors and fuel rails. In addition, it works with the original carb-style throttle linkage and is ready to accept all OEM sensors. Available with injectors in four different flow rates to tune the system specifically for your engine, this well-engineered and high performance-intended product is a true plug-and-play system that will satisfy the requirements of FAST™ XFI™ engine controllers and all other major systems.

DESCRIPTION	PART NO.
EZ-EFI™ Self Tuning Fuel Injection System	30226-KIT
EZ-EFI™ ECU Only	30226
4150 Throttle Body	304150
