

2003-2006

Nissan 350Z Nitrous System

Perfect for mild to wild performance, this ZEX™ kit was designed for a plug and play installation in 2003-2006 Nissan 350Z. ZEX™ patented Active Fuel Control™ actively adjusts enrichment fuel with bottle pressure.

- ZEX™ electronics use the vehicle's throttle-by-wire TPS sensor to activate nitrous only at wide-open throttle
- Safely adds an additional 55 to 100 hp
- Wet nitrous system designed specifically for '03- '06 350Z platform

1999-2004

Mustang Nitrous System

ZEX™ has designed a special wet nitrous system for 2 & 4 Valve Ford Modular 1999-2004 Mustangs that safely adds anywhere from 75 to 175 hp.

- ZEX™ patented Active Fuel Control™ adjusts fuel enrichment with variations in bottle pressure; you're never too rich or too lean
- ZEX™ electronics use the vehicle's TPS sensor to activate the nitrous at wide-open throttle only
- Exclusively for 2 & 4 Valve Ford Modular Mustangs
