

Pro Action™ 24° Big Block Chevrolet Assembled Heads

RHS™ Pro Action™ 24-Degree Big Block Chevrolet Assembled Heads are the right choice for serious performance applications such as street rods, muscle cars, drag racing, oval track racing and marine. Now available fully assembled with premium COMP Cams® valve train components, these powerful cylinder head assemblies have been engineered and proven to yield exceptional out-of-the-box performance gains versus other BBC heads.

- Features multi-angle intake & radiused exhaust valve seats for up to 5% more flow; improved guide and seat material
- Additional deck material for angle milling & reinforced high-stress areas for high compression durability
- Exclusive Clean Cast Technology™ delivers superior port-to-chamber transitions for greater airflow & reduced post-purchase machining
- Available in aluminum & cast iron with quality COMP Cams® components; options include 320cc or 360cc runners both with 119cc chambers
