

Ford Small Block 289-302 48mm IDA Weber Eight Stack Induction System

The new Inglese™ Ford Small Block 289-302 48mm IDA Weber Eight Stack Induction System is a complete kit that bolts up without any need for additional tuning and has all the appearances of the original FIA COBRA intake, right down to the COBRA logo and thermostat configuration (COBRA intake manifold available separately). The Inglese™ Ford Small Block 289-302 48mm IDA Weber Eight Stack Induction System is an excellent street or race unit offering improved throttle response over common 4-barrel carbureted systems. Featuring pre-tuned jetting for easy hassle-free installation, the blueprinted Weber carbs eliminate stereotypical Weber challenges and provide excellent tire-shredding power.

Inglese™ Ford Small Block induction systems are completely customizable to the buyer's needs including optional custom painting, chrome finishes and high polished components. The Inglese™-cast intake manifold does not have coolant passages, identical to the original Ford COBRA manifolds.

DESCRIPTION	PART NO.
289-302W, IDA, 48mm COBRA Type (No Logo)	NG1679
289-302W, IDA, 48mm COBRA Type (COBRA Logo)	NG1680

Ford FE 48mm IDA Weber Eight Stack Induction System

Nothing defines vintage Ford performance like an Inglese™ Weber Eight Stack Induction System. The Inglese™ Ford FE 48mm IDA Weber Eight Stack Induction System is tuned at the factory for your exact combination based on your engine specifications, including: displacement, cylinder heads, camshaft, compression, transmission and other critical parameters. Optional system benefits include the ability to personalize your induction system with custom painting or chrome plating of the carburetor bodies, chrome velocity stacks and hardware, air filters, etc. Each system includes a custom synchronization/tuning meter, tuning manual, chrome intake bolts and t-shirt to show that your engine is equipped with an Inglese™ Induction System. Get the same performance and style used by legendary builders such as Ford Racing, Shelby America, and Pantera for your Ford FE powered street rod or kit car.
