

■ ULTRA PRO MAGNUM™ ROCKER ARMS

The new Ultra Pro Magnum™ Rocker Arms not only live up to the lofty standards of the original Pro Magnum™, but they also take stud mount rocker performance, stability and value to a whole new level. The modern arched, web-like design delivers increased strength and rigidity while still reducing the moment of inertia and optimizing the dynamic balance. As a testament to the strength of this design, COMP Cams® includes a lifetime guarantee against the breakage of the rocker arm body for any reason.

- Investment cast 8650 chromemoly body & arched, web-like design delivers increased strength & rigidity while reducing moment of inertia
- CAD & FEA design is approx. 29% stronger than the previous Pro Magnum™ Rockers; unique black oxide exterior finish helps prevent corrosion
- Increased retainer & valve spring clearances for use of large diameter valve springs, retainers & +.050" locks without clearance or fitment issues
- Feature oversized trunions, precision-sorted needle bearings, hardened roller tips, rebuildable design & a lifetime guarantee on the rocker body
