

■ EZ-EFI™ SELF TUNING FUEL INJECTION SYSTEM

FAST™ engineers set out to develop the ultimate fueling strategy for the EZ-EFI™. The EZ-EFI™ features all new patent pending technology with the most advanced self tuning control strategy available anywhere today. Simply hook it up, answer the basic setup Wizard questions on the included hand-held display and the system tunes itself as you drive. Countless research and development hours were spent on a number of prototype test vehicles to develop a high-quality system truly worthy of the FAST™ brand.

Capable of supporting up to 550 horsepower engines, the FAST™ EZ-EFI™ Self Tuning Fuel Injection System is a totally complete system including the ECU, wide-band oxygen sensor, wiring harness, fuel injectors, optional fuel pump kit and other assorted components, including the innovative 4150 Throttle Body from FAST™.

The FAST™ 4150 Throttle Body delivers the total package approach for anyone with an existing 4150-type intake manifold. Everything comes with the kit, including appropriate fuel injectors and fuel rails. In addition, it works with the original carb-style throttle linkage and is ready to accept all OEM sensors.

Installation of the FAST™ EZ-EFI™ can be completed easily in an afternoon and doesn't require any EFI experience or expertise.

- No tuning experience or laptop required for self tuning system
- Complete system includes ECU, wide-band oxygen sensor, wiring harness, fuel injectors, fuel pump kit and 4150 throttle body
- 4150 throttle body works with original carb-style linkage and accepts all OEM sensors
- Bolts on to any engine under 550 hp, regardless of brand or size; ideal for street rods & muscle cars

DESCRIPTION	PART #
EZ-EFI™ Self Tuning Fuel Injection System	30226-KIT
EZ-EFI™ ECU Only	30226
4150 Throttle Body	304150
