

## ■ BLACKOUT NITROUS SYSTEMS™

ZEX™ Blackout Nitrous Systems™ are unprecedented for looks, performance and power potential. Like all ZEX™ nitrous systems, the Blackout Kits incorporate the most technically advanced performance features available, including the patented ZEX™ Active Fuel Control™. This feature automatically adjusts the nitrous fuel enrichment so your engine never runs too rich or too lean. In addition, the ZEX™ Blackout Nitrous Systems™ feature a throttle-by-wire compatible electronic TPS switch for system activation at wide-open throttle. Power settings vary for each application specific kit and all ship complete with appropriate tuning jets, as well as fuel tap fittings, solenoids, filters & all necessary activation electronics.

Systems feature all-new black powder-coated bottles, carbon-fiber look hoses, and fittings for a variety of carbureted & fuel-injected applications that are perfect for street/strip and all-out drag racing applications. Don't get left in the dark – order your ZEX™ Blackout Nitrous System™ today!

- Black powder-coated bottle, plates and fittings; carbon-fiber look hoses
- Major e.t. reductions with additional nitrous horsepower; custom systems for several applications
- All kits contain patented ZEX™ features, including Active Fuel Control™ and a throttle-by-wire compatible electronic TPS switch
- Carbureted and EFI systems available

DESCRIPTION	HORSEPOWER	PART #
Square Flange Perimeter Plate Blackout Nitrous System™	100-300 HP	82040B
Dominator Perimeter Plate Blackout Nitrous System™	100-300 HP	82048B
Square Flange Race Perimeter Plate Blackout Nitrous System™ (10 lb. Bottle)	125-450 HP	82311B
Dominator Race Perimeter Plate Blackout Nitrous System™ (10 lb. Bottle)	125-450 HP	82312B
GM LSX Blackout Nitrous System™	75-175 HP	82235B
Ford 2005-Current Mustang GT Blackout Nitrous System™	75-175 HP	82034B
4-6 Cylinder EFI Wet Nitrous System™	55-75 HP	82021B
